

VISION

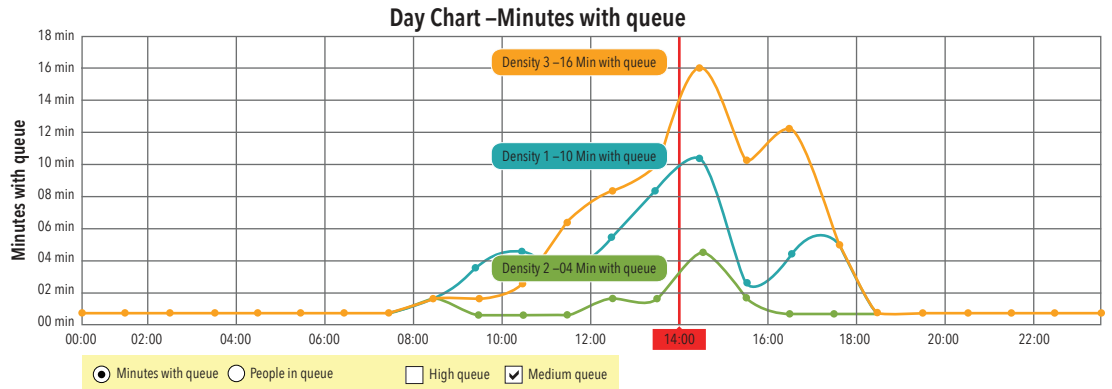

DRIVE-THRU DANGER ZONE

VISION HIGHLIGHTS

- The most cost-effective video technology of the future
- Enhanced image usability and integration
- Unified mobility and “Access Anywhere” technology via the cloud
- Flexible and scalable options
- 60 days of storage for HDTV-quality video

Danger Zone

When cars stacked up at the drive thru lead customers to drive by or drive away

Wachter’s Solution

A **high-definition (HD) IP-based camera** monitors the Danger Zone, and provides visual and audio alerts to help you better manage your resources to facilitate an increase in customers.

Visual Recognition

System includes one (1) wide-angle HD IP camera and two (2) 17” HD monitors located at the cashier booth and the food delivery window.

Audio Alerts of Stacking Lines:*

The system not only provides a visual queue, but is capable of providing an audio alert through drive-thru headsets.

*Audio alerts / messaging through headsets possible with an advanced danger zone camera.

Warrantied by Wachter:

Wachter’s 24x7 Network Operations Center provides round-the-clock system support

Real-Time Reports:

View real-time reports of customer specific dwell time violations, average dwell times, and more. Reports are held for 90 days on the camera and can be accessed directly or through separate analytics applications.

Increase Car Counts and Customer Satisfaction:

With video / audio queues, managers can efficiently allocate resources to increase car counts and customer satisfaction
